Maintenance department update: **Tim Baumgarten** supplied a typed list of work performed by the Laborers. **John Strohl** stated that he did not think this update was necessary every month. If **Tim Baumgarten** reported to the County Engineer and the Engineer was happy, all should be good. The Committee agreed and this report will not be part of the meeting every month moving forward.

Engineers report: **Michael Tappendorf** provided a typed report. Committee members mentioned they had received complaints regarding the millings the Highway Department is putting down. But understand that with the equipment we have it is hard to keep off the road. **Teresa Boehm** asked if there were any new Grants available. **Michael Tappendorf** informed her of a TARP grant that just became available for which he is applying. **Michael** stated that we would start on the Okaw Railroad crossings in the next few months. He also told the Committee of large dump truck repair bills that will be coming.
