

The mission of the Shelby County Drug Court is to reduce drug use and recidivism while increasing public safety and overall quality of life in our community by providing a court-supervised program for high risk, substance dependent offenders, that partners with substance abuse, mental health, and other community resources to transform participants into positive, contributing members of society.

Shelby County Drug Court is partnered with Shelby County Community Services to provide evidence-based substance abuse and mental health treatment.

WHO IS ELIGIBLE?

Each problem-solving court has different criteria that must be met to be eligible. However, all problem-solving courts focus on high-risk, high-need people who have open criminal cases.

If you are interested in learning more or would like to give Drug Court a shot, talk to your lawyer and let them know, or reach out to Shelby County Probation or Shelby County Community Services.

DRUG COURT FACTS

- 4,000 + Treatment Courts in operation
- 58% Reduction in crime
- \$6,000 tax dollars saved per participant
- Drug Court is a voluntary program

DRUG COURT GOALS

- Long-lasting sobriety
- Provide structure and support
- Access to resources for jobs/housing/schooling/life skills, and family relationships.

Adult Drug courts are an alternative to incarceration that combine public health and public safety approaches to connect people involved in the justice system with individualized, evidence-based treatment and recovery support services. Adult drug courts are the most carefully studied, well-proven intervention in our nation's history for leading people with substance use disorders out of the justice system and into lives of health and recovery.
